

# Year 3 Topic Leaflet Spring 1

## Rocks, Relics and Rumbles

In this exciting topic, we will be investigating rocks and finding out how igneous, metamorphic and sedimentary rocks are formed. We will also be discovering what fossils are made from and how they are formed.

In English, we will be exploring the poetic language of the beautifully illustrated book “A Pebble in My Pocket”, which takes readers on a scientific adventure through time and across the globe, all by following a single pebble over millions of years. We will also be reading the classic text “The Iron Man” by Ted Hughes and using it as inspiration for writing our own adventure narratives.

In Art, we will be using our sketchbooks to plan and develop our ideas for drawing fossils (just like the famous English palaeontologist, Mary Anning). In Geography, we will be exploring what makes our county Dorset so special. This will include learning to find local places in Dorset on a UK map, and being able to follow a route on a map.
